GUIDELINES FOR PRACTICAL ASSESSMENT TASKS

History. Early knowledge of agriculture was a collection of experiences verbally transmitted from farmer to farmer. Some of this ancient lore had been preserved in religious commandments, but the traditional sciences rarely dealt with a subject seemingly considered so commonplace. Although much was written about agriculture during the Middle Ages, the agricultural sciences did not then gain a ...

Agriculture, agricultural science, and agronomy. The three terms are often confused. However, they cover different concepts: Agriculture is the set of activities that transform the environment for the production of animals and plants for human use. Agriculture concerns techniques, including the application of agronomic research.

Agricultural science - Wikipedia

Precision Agriculture Certificate (Major Code: PA41) Mission Statement The mission of the Agricultural Science program is to prepare students to enter the field of agriculture by providing education and hands-on training to equip students with the knowledge and skills necessary to enter the workforce as an agricultural professional.
