The Bayliner 2556 was a great boat in its day, and by the current standard of this size of boats available today, the old 2556 is holding its own and is STILL a more desirable model than 70% of the new boats. A clear, concise and logical introduction to boat electrics. An understanding of this subject is essential for any skipper—salt water is a harsh environment for wires and chips and problems can occur at any time, both in harbour and at sea. Featuring fantastic, clear, colour graphics. Topics include: What is electricity? Where electricity comes from (the engine, shore power, a generator, renewable sources). How the boat is wired. Instruments. Laptops. Charging the batteries. Troubleshooting.

Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men’s struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African “tradition” that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men’s vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

The story of the Ham Lake fire, at the time the most destructive wildfire in modern Minnesota history—the blaze, the firefighters’ battle, the human toll On May 5, 2007, two days into his twenty-seventh trip to the Boundary Waters, Stephen Posniak found a perfect spot on Ham Lake and set about making a campfire. Over the next two weeks, the fire he set would consume 75,000 acres of forest and 144 buildings. More than one thousand firefighters would rally to extinguish the blaze, at a cost of 11 million dollars. Gunflint Burning is a comprehensive account of the dramatic events around the Ham Lake fire, one of the largest wildfires in Minnesota history. Cary J. Griffith describes what happened in the minutes, hours, and days after Posniak struck that fateful match—from the first hint of danger to the ensuing race to flee the fire or defend imperiled property to the incredible efforts of firefighters and residents battling a blaze that lit up the Gunflint Trail like the fuse to a powder keg. We meet locals faced with losing everything: the sheriff and his deputy tasked with getting everyone out alive, tourists caught unawares; men and women using every piece of equipment and modern firefighting technique against impossibly high winds and dry conditions to suppress a wildfire as it grew to historic proportions; and, finally, Stephen Posniak, who in the aftermath tragically took his own life—the fire’s only fatality. In sharp detail, Gunflint Burning describes the key events of the Ham Lake fire as they unfold, providing readers with a sense of being on the front lines of an epic struggle that was at times heroic, tragic, and sublime.

Is ignoring the heat a recipe for disaster? Grant Twombley has it all—a successful career, a contacts list full of gorgeous and willing bedmates, and the ear of Los Angeles’s most prominent captain of industry. But being Sebastian Shark’s right-hand man isn’t without its challenges. Messy ones. Unknown forces still work to take down Shark Enterprises, and Grant’s full focus is needed to protect their empire. But he’s sitting on a scandalous secret. A truth he can’t even share with his best friend. Until disaster strikes. Rio Gibson carries dark secrets of her own. She hides them well...until her world is shattered. She holds Shark responsible, but the only person she shares her suspicions with is also the man closest to him—the giving, gorgeous man who makes her feel so many new and surprising things. Dangerous things. But Rio’s used to handling the heat in the kitchen, and she can handle this challenge too. Getting out simply isn’t an option—no matter how bad it’ll burn in the end.

In Timeless Santa, join Peter Clockwerk, as he takes an imaginary journey to the past and discovers the real Santa Claus. Witness the history behind some of the traditions we still enjoy today, more than a thousand years later.

Everyone dreams of tropical escape. But what happens when you escape for too long? Imagine spending 24 hours a day with your spouse in 31 not-so-square feet . . . for years; crossing the Pacific Ocean on two gallons of fuel; and tossing spaghetti marinara around your living room, then cleaning it up while bouncing like ice in a martini shaker. Tightwads on the Loose tells the story of Wendy and Garth, lured to sea by the promise of adventure. They buy a 31-foot boat that fits their budget better than it fits Garth’s large frame and set sail for an open-ended voyage, never imagining they’d be gone seven years, or cover 34,000 miles at the pace of a fast walk. They live without most “necessities” and learn that teamwork and a sense of humor matter most as they face endless “character-building opportunities.” They make a long-anticipated visit to the island where Garth had been shipwrecked as a teenager, only to find it had become a penal colony. An electronic catastrophe in the Solomon Islands leaves them without navigation equipment, which forces them to trade their free-wheeling lifestyle for one that seems straight out of a ’60s sitcom: jobs at a U.S. Army base in the Marshall Islands. In Asia, they dodge typhoons and ships that threaten to turn their home into kindling. Finally they endure a grueling 49-day nonstop ocean crossing. None of this prepares them for their arrival “home” to a post-9/11 America which leaves them wondering what had changed more, them or the world. Tightwads on the Loose offers a fun read to the armchair adventurer – or anyone afflicted with wanderlust.
