On August 4, 1940, an unassuming American journalist named Varian Fry made his way to Marseilles, France, carrying in his pockets the names of approximately two hundred artists and intellectuals – all enemies of the new Nazi regime. As a volunteer for the Emergency Rescue Committee, Fry's mission was to help these refugees flee to safety, then return home two weeks later. As more and more people came to him for assistance, however, he realized the situation was far worse than anyone in America had suspected – and his role far greater than he had imagined. He remained in France for over a year, refusing to leave until he was forcibly evicted. At a time when most Americans

ignored the World War II atrocities in Europe, Varian Fry engaged in covert operations, putting himself in great danger, to save strangers in a foreign land. He was instrumental in the rescue of over two thousand refugees, including the novelist Heinrich Mann and the artist Marc Chagall.

Logical concepts and methods are of growing importance in many areas of computer science. The proofs-as-programs paradigm and the wide acceptance of Prolog show this clearly. The logical notion of a formal proof in various constructive systems can be viewed as a very explicit way to describe a computation procedure. Also conversely, the development of logical systems has been influenced by accumulating knowledge on rewriting and unification

techniques. This volume contains a series of lectures by leading researchers giving a presentation of new ideas on the impact of the concept of a formal proof on computation theory. The subjects covered are: specification and abstract data types, proving techniques, constructive methods, linear logic, and concurrency and logic.

The report is the first complete assessment of the relationship between the RCMP and the IRS system. The focus of the research was to explain how police officers were linked to the IRS system and what actions the police took, if any, if they were aware of abuse. Although the research found that the RCMP was not an active participant in the IRS system, it did conclude that the RCMP assumed a responsive, law enforcement role within the system. The RCMP's role included: - searching for and returning truant children; - finding parents who refused to send their children to school
