After working for years as a child psychiatrist in The Hague, Netherlands, Rita Zecher moves to Aruba, a small island in the Dutch Caribbean. Rita and her two youngest children embark on a journey to start a new life. As a five-lingual psychiatrist, and Aruba's only child psychiatrist, Rita connects to the hearts of the people of all backgrounds. But when abused children seek out her help, Rita gets entangled with their perpetrators, their lawyers, and a failing justice system. Rita must now face the dark side of paradise. Aruba's corrupted justice system doesn't protect abused children, so Rita must fight for their rights, for the children who have lost their lives, dignity, and souls to child abuse. Rita must now become a voice to their silent cries.

A collection of essays representative of an assembly of diverse perspectives from policy leaders in the region, its intended use is to develop constructive policy that contributes to regional stability and prosperity.

This is first intellectual history of the Caribbean written by a top Caribbean studies scholar. The book examines both the work of natives of the region as well as texts interpretive of the region produced by Western authors. Stressing the experimental and cultural particularity of the Caribbean, the study considers major questions in the field.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

"New! An easy-to-use, alphabetical guide for creating rhymes. Features 55,000 headwords with pronunciations at every entry. Lists arranged alphabetically and by number of syllables, with thousands of cross-references to guide readers to correct entries."

Science and technology, nature, geography, culture, sports and hobbies, and history all combine in this mind-blowing visual encyclopedia. From incredible insects and musical instruments to spacecraft and prehistoric life, and from art and earthquakes to American football and dogs, Picturepedia gives you a world of information on every page. Did you know that more than half of the human body's weight is water, and that a koi carp can live for more than 200 years? Or how about there being more than 20,000 islands in the Pacific Ocean, or that Turkey eats the most bread, with each person getting through 104.6 kg (230.5 lb) of it per year? First published in 2015, Picturepedia has been revamped into a more thrilling edition that will take you on a visual odyssey. This brilliant book is crammed with stunning photographs, gripping information, and explanatory diagrams that allow for fascinating discoveries. New and updated and jam-packed with thousands of pictures and fascinating facts about science, nature, culture, sports, and history, Picturepedia is the ultimate visual encyclopedia.

If anything, in this presidential election special, he's madder than ever! In his earlier bestseller, There's Nothing in the Middle of the Road but Yellow Stripes and Dead Armadillos, Hightower only began to tap into the deep yearning that Americans have for a new politics that speaks to them from a real-world, kitchen-table perspective. Now, with the year 2000 being an especially significant marker for contemplating our country's direction, not only for the new year but for the new century and the new millennium, it's time for citizens to reclaim their political, economic, and cultural heritage. Leading the way with his hilariously irreverent yet profoundly serious book is our name-naming, podium-pounding, point-them-in-the-right-direction populist, Hightower himself. He whacks conventional wisdom right upside the head,showing,with startling facts and compelling personal stories, that despite a so-called period of prosperity, America's middle class is getting mugged, and that far from being ordained by the gods,globalization is globaloney! Hightower rips the mass off of the candidates, the parties, the consultants, and especially the moneyed powers whoa re supporting all of the leading presidential hopefuls. he's mad about them all--but what he's maddest about, what really gets his goat,is that they are all the same! To paraphrase Jim, American politicians are alike because they don't come cheap. In fact, they're all very expansive. which is why only the rich can own them and why their allegiance is definitely not to regular,work-a-day citizens. No one is spared in this insightful and engaging blend of horror and success stories, hard-hitting commentary, laugh-out-loud humor, useful facts, and sparkling language. An equal opportunity muckraker and conscientious agitator for "We the people," Hightower inspires us to take charge again, to build a new politics, and, together, to build a better tomorrow. Jim Hightower's If the Gods Had Meant Us to Vote They Would Have Given Us Candidates proves yet again that his is a uniquely wise and peerlessly singular voice in the maelstrom of political prattle.

A fascinating look behind the scenes of top-level chess with superb analysis of all the games by Evgeny Bareev, a former second of world champion Vladimir Kramnik. The authors reveal everything about the three world chess championship matches: the preparation, the progress and the aftermath, the secret strategy and the brutal stress. Full of honesty, irony, history, wit, anger, wisdom, and even poetry. Winner of the English Chess Federation 2008 Book-of-the-Year Award, the most prestigious chess book prize in the world. With many photographs.

ABC's, First Words, Numbers and Shapes, Colors and Opposites including a special note to parents. Children will enjoy hours of learning fun in each 32-page bi-lingual book. All four books are designed specifically to teach and reinforce basic concepts for preschool through early elementary school children.
