Written in practical, down-to-earth, logical language. Companion DVD, 'Calming Signals: What Your Dog Tells You

Is it possible that what looks like play is something else entirely? German author Mechtild Käufer presents findings from scores of researchers worldwide who study why dogs play, the benefits they get from play and how to recognize the " rules " of play that dogs follow to keep their play behaviors fun and safe. There are dozens of color photographs included to help illustrate the actions of dogs at play.

You may have read books or seen TV shows that tell you that your dog will seek to dominate you, your family members and other pets unless you become the "alpha" and put him in his place. The theory is that since dogs evolved from wolves and wolves (supposedly) form packs with strict pecking orders and battle each other to become the pack leader, your dog will do the same within your household. In this new US edition, author Barry Eaton separates out the facts from the fiction regarding dominance in pet dogs, presenting the reader with the results of recent research into the behavior of wolves and the impacts of selective breeding on the behavior of dogs. The results may surprise you and will surely inform you.

Is walking your dog a tug-of-war? At last, a simple way to teach your dog to walk on a leash without pulling your arm off! Norwegian dog trainer, Turid Rugaas, internationally known for her ground-breaking work on canine body language and author of On Talking Terms with Dogs: Calming Signals, turns her attention to the common problem of dogs that pull while on a leash. In My Dog Pulls. What Do I Do? you will learn Turids quick and easy method to train any age, size or breed of dog to walk calmly and quietly on a loose leash. Her approach is humane and based on a solid understanding of why dogs pull and how to work with the dogs nature and the environment to overcome the problem. City, town or country walking will become more relaxed, reducing stress for dog and owner. My Dog Pulls explains: Why dogs develop pulling problems.Simple steps to retraining even a vigorous puller.How to rehabilitate the puller with clear, helpful photographs. Correct use of leashes, collars and harnesses. What works, what doesnt.Troubleshooting problems that arise in training.

Includes dozens of full color illustrations.

Barking is natural and almost all dogs bark. It is one of the many ways dogs communicate with each other as well as with humans. In this book, author Turid Rugaas, well known for her work on identifying and utilizing canine "calming signals," turns her attention to understanding and managing barking behavior.

INSTANT NEW YORK TIMES BESTSELLER An incredible, revolutionary true story and surprisingly simple guide to teaching your dog to talk from speech-language pathologist Christina Hunger, who has taught her dog, Stella, to communicate using simple paw-sized buttons associated with different words. When speech-language pathologist Christina Hunger first came home with her puppy, Stella, it didn ' t take long for her to start drawing connections between her job and her new pet. During the day, she worked with toddlers with significant delays in language development and used Augmentative and Alternative Communication (AAC) devices to help them communicate. At night, she wondered: If dogs can understand words we say to them, shouldn ' t they be able to say words to us? Can dogs use AAC to communicate with humans? Christina decided to put her theory to the test with Stella and started using a paw-sized button programmed with her voice to say the word " outside " when clicked, whenever she took Stella out of the house. A few years later, Stella now has a bank of more than thirty word buttons, and uses them daily either individually or together to create near-complete sentences. How Stella Learned to Talk is part memoir and part how-to guide. It chronicles the journey Christina and Stella have taken together, from the day they met, to the day Stella " spoke " her first word, and the other breakthroughs they ' ve had since. It also reveals the techniques Christina used to teach Stella, broken down into simple stages and actionable steps any dog owner can use to start communicating with their pets. Filled with conversations that Stella and Christina have had, as well as the attention to developmental detail that only a speech-language pathologist could know, How Stella Learned to Talk will be the indispensable dog book for the new decade.

An internationally renowned specialist in the scientific study of animal behavior explores the bonds between dogs and humans and shows that by observing the cognitive behavior of dogs, a great deal can be learned about how the human mind works.

In this new book, renowned dog trainer Kathy Sdao reveals how her journey through life and her decades of experience training marine mammals and dogs led her to reject a number of sacred cows including the leadership model of dog training.
