When a second Rama ship appears in the solar system, 70 years after the first, a new mission sets out to meet it. Most of the first quarter of the book is taken up with building characters and a 'history' of the Earth between Raman visits, much of it is superfluous to the story.

At first, only a few things are known about the celestial object that astronomers dub Rama. It is huge, weighing more than ten trillion tons. And it is hurtling through the solar system at inconceivable speed. Then a space probe confirms the unthinkable: Rama is no natural object. It is, incredibly, an interstellar spacecraft.

In the sequel to "Rendezvous with Rama," a second Raman spacecraft is discovered approaching Earth in 2196, an event of potentially devastating consequences for humankind

Years after the appearance in the solar system of the immense, deserted spaceship named by its discoverers Rama, a second craft arrived, destined to become home for a group of human colonists. But now the colony has become a brutal dictatorship, committing genocide against its peaceful alien neighbours and terrorizing its own inhabitants. Nicole Wakefield, condemned to death for treason, has escaped and crossed the Cylindrical Sea to the island of mysterious skyscrapers which the humans call New York. There she is reunited with her husband, and soon they are joined by others of their family and friends. But pursuit is not far behind and they are forced to flee to the subterranean corridors of New York inhabited by the menacing octospiders.

The Story of Rama follows on from The Stories of Krishna (Part Two) and has been designed for elementary students. The Story of Rama, (in 2 parts) together relate in 16 episodes the story of the Ramayana. Part One contains the first eight stories. It begins with a revision of the grammar learned in the The Stories of Krishna books, and then goes on to introduce: the standard method of transliteration of the Sanskrit script; the gerund ('having done something'); various Sanskrit idioms; and the declension of the Sanskrit word for 'that' in all three genders. The second part contains a revision of the grammar learned so far, and then going on to cover in simple terms appropriate for the level: an introduction to the imperative mood; other important noun and pronoun declensions; 'having done something' used with prefixes; the part passive participle; the conjugation of the middle voice and the verb 'to be' in present, future and past times; and the completion of the standard method of transliterating Sanskrit script.

Over a hundred years after the Mahabharata War, an ancient power threatens to destroy the new Age of Men, by establishing the Age of Terror of the asuras, long believed to be extinct. The only hurdle in its path is Guru Dronacharya ' s son, the mighty but accursed warrior Ashwatthama, who lost all his powers following Lord Krishna ' s curse, and who unwittingly finds himself drawn into the quest of the lost bow of Lord Rama—the Kodanda. As ghosts of the distant past return to haunt him, and the line between friends and enemies blurs, Ashwatthama must fight his inner demons to emerge victorious. He undertakes a perilous journey—across the vast plains of the Ganges, to the snow-capped peaks of the Himavant—where the price of failure is a fate worse than death, and death is a privilege not granted to Ashwatthama. Is this all part of Lord Krishna ' s great plan? Will Ashwatthama be able to regain his lost glory?

A priestess and an engineer who share the same vision of the future meet on Mars as Earth's civilization faces total collapse, in a new novel in the popular Rama science-fiction series.

Practical information on the advanced practices of yoga presented in straightforward language.

Young Carmen Dula and her family are embarking on the adventure of a lifetime-they're going to Mars. But Carmen's rebellious streak leads her to venture out into the bleak Mars landscape alone, where she is saved by an angel. An angel with too many arms and legs, a head that looks like a potato gone bad-and a message for the humans on Mars: We were here first...

Rama the cat has no home. He is the Gypsy Cat, and a life full of travel and adventure awaits him. When a gypsy woman found Rama as a kitten, she pierced his ear with a golden earring and named him after an exiled prince who wandered for years, having many adventures. Rama the cat lives up to his namesake when he strays from the wagon that was his home, and begins his own thrilling journey, discovering dangers on the wharf, in the forest, and by the river, encountering new foes and friends. Will Rama ever return to his old life . . . and does he even want to? This ebook features an illustrated biography of Betsy Byars including rare images from the author ' s personal collection.

In the far future, humanity began to search the stars, sending out vast spaceships that would take generations to reach their goals. In the depths of space they encountered the Ildiran empire - apparently the galaxy's only other intelligent civilization. The Ildirans came to Earth and passed on the knowledge of their stardrive, allowing humanity to expand to the stars. Almost two hundred years after that first contact, there are human colonies proliferating through the galaxy. As Mankind seizes the future, danger comes from the past, for two human archaeologists glean forbidden knowledge from the ruins of a dead world. Once, the insect-like Klikiss ruled the stars. Now, only their robot servants remain, guardians of a terrible technology - the Klikiss Torch, which has the power to create suns. Now, Humanity prepares to flex its new found muscle and activate the Torch for the first time in millennia, but there are reasons the Klikiss empire fell, and a train of events is about to be set in motion, that will change the universe...
