Featuring ordinary people, celebrities, game shows, hidden cameras, everyday situations, and humorous or dramatic situations, reality TV is one of the fastest growing and important popular culture trends of the past decade, with roots reaching back to the days of radio. The Tube Has Spoken provides an analysis of the growing phenomenon of reality TV, its evolution as a genre, and how it has been shaped by cultural history. This collection of essays looks at a wide spectrum of shows airing from the 1950s to the present, addressing some of the most popular programs including Alan Funt's Candid Camera, Big Brother, Wife Swap, Kid Nation, and The Biggest Loser. It offers both a multidisciplinary approach and a cross-cultural perspective, considering Australian, Canadian, British, and American programs. In addition, the book explores how popular culture shapes modern western values; for example,

both *An American Family* and its British counterpart, *The Family*, showcase the decline of the nuclear family in response to materialistic pressures and the modern ethos of individualism. This collection highlights how reality TV has altered the tastes and values of audiences in the twentieth and twenty-first centuries. It analyzes how reality TV programs reflect the tensions between the individual and the community, the transformative power of technology, the creation of the celebrity, and the breakdown of public and private spheres.

Praise for *The Billion Dollar BET* "In a gripping narrative that is both inspirational and cautionary, Brett Pulley tells us how Robert Johnson built Black Entertainment Television into a billion-dollar media empire. In a remarkable feat of reporting, without Johnson's cooperation, Pulley shows what it really takes to get ahead in America today, and in doing so provides as valuable a cultural as business history." --James B. Stewart Pulitzer Prize-winning journalist and bestselling author of *DisneyWar*, *Den of Thieves*, and *Heart of a Soldier* "Like or dislike? Agree or disagree? Bob Johnson's richly varied and fascinating life presses you against the window that Brett Pulley opens widely." --Bernard Shaw retired CNN anchor "Through his BET network, Bob Johnson reached the pinnacle of capitalism, the billionaire boys club, in the spirit of legions of driven, American moguls . . . Veteran business journalist Brett Pulley peels back the layers of this fascinating and complex entrepreneur." --Teri Agins Senior Special Writer, the *Wall Street Journal*, and author of *The End of Fashion: How Marketing Changed the Clothing Business Forever*

A cross-cultural look at music television

Indigenous media challenges the power of the state, erodes communication monopolies, and illuminates government threats to indigenous cultural, social, economic, and political sovereignty. Its effectiveness in these areas, however, is hampered by government control of broadcast frequencies, licensing, and legal limitations over content and ownership. *Indigenous Screen Cultures in Canada* explores key questions surrounding the power and suppression of indigenous narrative and representation in contemporary indigenous media. Focussing primarily on the Aboriginal Peoples Television Network, the authors also examine indigenous language broadcasting in radio, television, and film; Aboriginal journalism practices; audience creation within and beyond indigenous communities; the roles of program scheduling and content acquisition policies in the decolonization process; the roles of digital video technologies and co-production agreements in indigenous filmmaking; and the emergence of Aboriginal cyber-communities.
