The sprawl of Adventure. The addictiveness of Breakout. The intensity of Space Invaders. Once upon a time, you could only experience this kind of excitement at the arcade. But in 1977 that changed forever. You, and maybe a friend or a sibling, could instantly teleport from your own living room to a dazzling new world—with nothing more than a small plastic cartridge. This was the promise of the Atari 2600—and it was delivered in ways no one ever expected. No, the games it put on your TV weren't what you saw when you plunked in your quarters at the convenience store or in the noisy, smoky business on the other side of town. But they brought the arcade home—and it hasn't left since. With *Adventure: The Atari 2600 at the Dawn of Console Gaming*, Jamie Lendino takes you to the front lines of the home gaming revolution, exploring the history of the world-changing console and delves into the coin-op ports and original titles that still influence gaming today. Before your next trip to a magical universe with your Xbox One, PlayStation 4, or Nintendo Switch, see how the home gaming industry truly began.

In one split second they were hurled across time into a world one million years away. A surprise nuclear war may cause the End of the World, but not the way anyone could have imagined. A classic science fiction tale originally published in *Galaxy Magazine*. The pleasant little American city of Middletown is the first target in an atomic war - but instead of blowing Middletown to smithereens, the super-hydrogen bomb blows it right off the map - to somewhere else! First there is the new thin coldness of the air, the blazing corona and dullness of the sun, the visibility of the stars in high daylight. Then comes the inhabitant's terrifying discovery that Middletown is a twentieth-century oasis of paved streets and houses in a desolate brown world without trees, without water, apparently without life, in the unimaginably far-distant future.

Why do so many Christians struggle to relate their faith to their daily work? In this book John C. Knapp argues that the church's ambiguous teachings about vocation, money, and business have long contributed to Christians' uncertainty about discipleship in the workplace. Drawing on his own expertise in business ethics and numerous interviews with Christians in diverse occupations, Knapp offers a new theological framework for Christian life in the world of business.

Oliver Wendell Holmes Sr., (1809-1894) was a physician by profession but achieved fame as a writer. He was one of the best regarded American poets of the 19th century. In 1833 Holmes attended the famed Ecole de Medecine in Paris. He pursued his medical studies in the Parisian hospital system. He first attained national prominence with his poem Old Ironsides. One of his most popular works was The Autocrat of the Breakfast Table (1857). He was one of the five members of the group known as the Fireside Poets. He contributed poems and essays to the Atlantic Monthly from its inception, and also published novels. Holmes is also known for his writing of several beautiful hymns. In 1846, Holmes coined the word anesthesia. He also developed the popular model of the stereoscope. Amongst his other works are Elsie Venner (1861), The Guardian Angel (1867), The Poet at the Breakfast-Table (1872), John Lothrop Motley: A Memoir (1879), Medical Essays (1883), A Mortal Antipathy: First Opening of the New Portfolio (1885) and Over the Teacups (1891).

This is a book about two forms of service that may appear contradictory: war-fighting and peacemaking, military service and social entrepreneurship. In 2001, Marine officer-in-training Rye Barcott cofounded a nongovernmental organization with two Kenyans in the Kibera slum of Nairobi. Their organization- Carolina for Kibera-grew to become a model of a global movement called participatory development, and Barcott continued volunteering with CFK while leading Marines in dangerous places. It Happened on the Way to War is a true story of heartbreak, courage, and the impact that small groups of committed citizens can make in the world.
